

**Wilson Case - PowerMate Athletic Trainer's Shipping Case**

The PowerMate Athletic Trainer's case is wider and deeper than our SportMate. You can pack a lot more supplies and still have a case that is easy to handle. Packed with features - the PowerMate athletic case wastes no space. The fold down door, handy tilt-bins, removable ProLatch organizer trays and drawers keep your gear in place.

When you buy two or more PowerMate cases it is a good idea to order the the SuperStack option for every two cases. This allows you to stack the PowerMates without the worry of the top case slipping. The SuperStack option consists of a set of 12 metal feet. **NOTE:** Options are ordered separately — they do not come standard with the PowerMate cases

We also offer **FREE** custom case design and quotes for requirements not found in our standard Athletic case line.

**POWERMATE 1**

The SuperStack Option consists of a set of 12 metal feet for slip free stacking

This is an option to add when you order 2 or more PowerMate cases. Order one Super Stack option for every two PowerMate cases

ProLatch Organizer Tray  
*Subject to change without notice*

**POWERMATE 2**
