

Wilson Case SplitTop Athletic Trainer's Case

A favorite among college and pro athletic trainers throughout the country, the SplitTop's unique flip open lids keep your equipment organized and accessible. The new tongue-in-groove closure seals out dust and moisture.

This Athletic Trainers case comes standard with phenolic casters. These casters are great for hard surfaces and each have a 700 pound rating. For easy rolling on fields—upgrade to our Turf Tires.

There are many options to add to this athletic case. The optional half-length trays lie on aluminum rails directly beneath the lids, leaving plenty of room for large items in the bottom of the case. Also available are tape spindles and adjustable dividers. Click on the picture to get more details. **NOTE:** Options are sold separately — they do not come standard with the SplitTop case.

We also offer FREE custom shipping case design and quotes for requirements not found in our standard Athletic case line.

*Upgrade standard casters to Turf Tires—
Easy rolling tires that will never go flat!*
