

Wilson Case TablePRO-1 & TablePRO-2 Portable Treatment Tables

Athletic Trainer cases smartly designed for the road.

The TablePRO-1 & 2 are complete portable treatment tables that can handle the largest athletes with ease. They have ample room for supplies, no wobbly table legs and they both close to a compact size! Both the TablePRO-1 & 2 include dual taping stations that allow Athletic Trainers to treat two players at once. Both cases also come with our popular turf tires that will never go flat and roll easily on any surface!

The TablePRO-2 is slightly shorter than the TablePro-1. It is sized just right for riding in cargo bays of most buses when the removable tires are off. The TablePRO-2 also has different sized drawers and trays compared to the TablePro-1. All details for both of these Athletic Trainer cases are listed below.

TablePRO-1

Closes to a compact size

Dual Taping Stations
